Weighing, Nutrition and Performance

Weighing and Vaccination Information

- All cattle are home-raised
- Cattle will be hauled 5-10 miles weighed on the truck
- All cattle are located within a 45 mile radius of Statesboro, GA
- All cattle have been vaccinated on the Zoetis SelectVAC WeanVAC Protocol (unless noted with loadlot)

Nutrition Information

- All cattle have been weaned at least 45 days
- All cattle are bunk broke
- All cattle are running out on Bermuda pasture receiving a supplement of 14% stocker ration or soyhulls and corn gluten pellets
- All cattle are receiving free choice mineral

Performance Information

- Participating producers will acquire carcass and feedlot data on a representative example of their herd at least every two years.
- Several loads of cattle graded 90% choice or better
- Since the inception of SGCMA, members have successfully shipped cattle for more than 15 years.
- SGCMA members are using performance tested bulls from some of the nations top breeders who focus on both growth and carcass quality.
- All heifers will be guaranteed open
