To maximize our Vaccination Protocol, the second vaccination should be administered no less than 21 days prior to shipping. Everyone should analyze his or her deworming program to take advantage of the most weight gain during this period

NOTE: All catalogues are mailed one week prior to sale; also all holidays are taken into consideration to allow adequate mailing time.

SALE DATES VERSES DELIVERY DATES, in our best efforts to better market your cattle, all cattle have to be weighed at first processing to project weights for forward delivery of your cattle
